

# EXHIBIT C

Derrick,

Here are my cleaned up notes of the two answers you provided in response to my questions, "What were your meetings with Glassman's top colleague and his lawyer?" and "Why are you mentioned in various MiMedx f

1. On 9/12/17 you and your lawyer John K. Phillips went to meet with Jim Riley and Naomi Lutes because your attempts -- hundreds per day -- and you wanted to get information to see if Glassman was connected to it.

You insist that you were not working for Danny Guy -- or his lawyers -- at the time re: his campaign against sellers; you said you had tried (unsuccessfully) to change Danny's mind several times on shorts. In this time recover \$40 million for him from Bernhard Fritsch (in which you said you wore a wire for the FBI.)

That said, you insisted you never worked with or for Glassman and his lawyers. Your view of Glassman is low

Re Catalyst legal filings: Your appearance in them (as connected to Glassman's side) is complete human error who do not hesitate to assert you played a role for Glassman, are simply wrong. Still, to avoid becoming involved in record.

2. MiMedx is more complicated and you can't really discuss it.

But to the extent you appear in any \$MDXG discovery, it is solely because you worked for a U.S.-based entity if his legal team played an active role in orchestrating fraud.

Specifically, this U.S. law enforcement entity scripted/directed your communications (email, text presumably)

But at some point during this investigation you became unhappy with "the way they were going about it" and

\*For the record, the Department of Justice is the only entity able to operate like that in the U.S.
